

THE DODGE CITY TIMES.

The Post, Texas Live Stock Journal, and a few other stock papers, have not advocated the leaving off of six-shooters by the cow-boys, especially off the range, without some effect, as will be seen by the resolution adopted by the stockmen in convention last week. The Southwest Kansas and Indian Territory Association, is the first association of the kind to express itself on this subject; and it will not be alone in the matter very long, as doubtless the Barbour county people will, on the 17th, adopt similar resolutions, and place themselves squarely upon record in favor of law and order, and the removing of that one great incentive to crime and sorrow—the six-shooter. It is seldom that a cow-boy, or any one else, when unarmed, deliberately procures a weapon for the purpose of killing his man; he will let a slight or supposed insult pass, when, if he was armed, the first thing would be a shot, a groan, and a great crime would be committed, and he a candidate for the hangman's rope, a life in the penitentiary, or an outlaw upon the face of the earth. On the range it may be a necessity to carry six-shooters at times; but with the advances of civilization, it will be a very short time before the carrying a horse load of guns while on duty will be the exception instead of the rule. The cow-boys are not the only persons that should leave off their weapons.

The Post is proud of the distinction that its home stockmen are the first to set their faces against this practice, and congratulates them upon their sound sense of right, and cordially invites all other stockmen and stock papers to take the cue and join the forward movement—Caldwell Post.

Prof. Blake, the Cleveland astronomer, who believes that the earth has "caught on the center" and that we are now living in the tropic zone, says that the valleys of the Missouri and Mississippi, 500,000 square miles in each, will now become the greatest rice producing region on the globe, and rice is the only product to take the place of wheat in the support of 50,000,000 of the people of the United States.

The preachers in the Mormon Tabernacle at Salt Lake were on their high horses Sunday. They declared that no power of earth or hell could stop polygamy, and that Congressmen might pass laws and be d—d, they would be d—d anyhow.

County Attorney Vance says of the prohibition law, "whether it is wise or unwise is a question for the future." Mr. Vance should not talk in this half hearted fashion. It is worthy of a "wild-kyie."

Hutchinson is to have a \$20,000 opera house and a \$25,000 sorghum sugar refinery at least a sanguine correspondent from that city to the Emporia Republican says.

In a fight between two women at Fort Scott, poodle dogs were used as weapons. Neither one of the combatants were hurt, but the poodle dogs were badly used up.

A Great Bend lawyer lately made a speech before a justice, covering the whole ground from the "fall of Adam to the death of the devil."

Nickerson having had a narrow escape from fire, proposes to put up stationary ladders on all her buildings in the business part of town.

Josh Billings Heard From.

NEWPORT, R. I., Aug 11, 1889.
Dear Bitters—I am here trying to breathe in a little salt air of the ocean, and having been a sufferer for more than a year with a refractory liver, I was induced to mix Hop Bitters with the sea gale, and have found the mixture a glorious result. * * * I have been greatly helped by the Bitters, and am not afraid to say so.
Yours without a struggle,
JOSEPH BILLINGS.

The beauty and color of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.
